ABOUT US

"SevenMentor" has improvised a tendency to cope with all International Standards within their courses, by engaging both ends of the industry for students, professionals, and individuals to corporate clients. The organization conjointly gives chance within their educational programs to meet the needs with projected desires of quick developing networking trade.

"SevenMentor" education techniques allow honing the abilities of the Networking experts from Industries which allow them to be equipped with the updated technology and standards of their operating environment. The group is a center for technical excellence with the kingdom of the art lab centers & a properly exquisite curriculum which gives them exposure in advance and enables them to be specific inside the certification enterprise.

AGENTIC AI COURSE CURRICULUM

✓ Python Prerequisites

Getting Started With VS Code

- Python Basics - Syntax And Semantics
- Variables In Python
- Basic Datatypes In Python
- Operators In Python
- Conditional Statements (if, elif, else)
- Loops In Python
- List And List Comprehension In Python
- Practical Examples Of List
- Sets In Python
- Dictionaries In Python
- Tuples In Python
- Getting Started With Functions
- More Coding Examples With Functions
- Python Lambda Function
- Maps Functions Python
- Filter Function In Python
- Import Modules And Package In Python
- Standard Library Overview
- File Operation In Python
- Working With File Paths
- Exception Handling
- Classes And Objects In Python
- Inheritance In OOPS
- Poly-morphism In OOPS
- Encapsulations In OOPS
- Abstraction In OOPS
- Magic Methods In Python
- Operative Overloading In Python
- Custom Exception Handling
- Iterators In Python
- Generators In Python
- Function Copy, Closures and Decorators
- Numpy In Python
- Pandas - DataFrame And Series
- Data Manipulation With Pandas And Numpy
- Reading Data From Various Data Source Using Pandas
- Logging Practical Implementation In Python
- Logging With Multiple Loggers
- Logging With A Real World Examples

✓ Getting Started With Pydantic In Python

- Introduction To Pydantic
- Pydantic Practical Implementation

✓ Getting Started With Open-AI Ollama

- Building Important Components Of Langchain
- Building GENAI Apps
- Understanding Retrievers And Chains
- Introduction To Ollama And Set Up
- Simple GenAI App Using Ollama
- Tracking GENAI App Using Langsmith

✓ Building Basic LLM Application Using LCEL

- Getting Started With Open Source Models Using Groq API
- Building LLM Prompt And Str Output Parser Chain With LCEL
- Deploy Langserve Runnable And Chains As API
- Working With Prompt Template And Message Chat History Using Lang-chain

✓ Building AI agents With Conversation History Using Lang-chain

- Building Chatbot With Message History Using Lang-chain
- Working With Prompt Template And Message Chat History Using Lang-chain
- Managing the Chat Conversation History Using Langchain
- Working With VectorStore And Retriever

✓ Introduction to LangGraph

- Getting Started Lang-Graph Application: Creating The Environment
- Setting Up OpenAI API Key
- Setting Up GROQ API Key
- Setting Up LangSmith API Key
- Developing A Simple Graph or Workflow Using Lang-Graph: Building Nodes And Edges
- Building Simple Graph StateGraph And Graph Compiling
- Developing LLM Powered Simple Chatbot Using LangGraph

✓ Debugging LangGraph Application With LangSmith

- LangGraph Studio

✓ Different Workflows InLang Graph

- Prompt Chaining
- Prompt Chaining Implementation With Lang-graph
- Parallelization
- Routing
- Orchestrator-Worker
- Orchestrator Worker Implementation
- Evaluator-optimizer

✓ RAG With LangGraph

- Agentic RAG Implementation - Part 2
- Agentic RAG Theoretical Understanding
- Agentic RAG Implementation - Part 1
- Corrective RAG Theoretical Understanding
- Corrective RAG Practical Implementation
- Adaptive RAG Theoretical Understanding
- Adaptive RAG Implementation

✓ End To End Agentic Chatbot With Web Search Functionality

- Introduction To The Project
- Implementing The Front End With Streamlit
- Implementing GraphBuilder And Search Tools Pipeline
- Implementing Node Functionality With End To End Agentic Pipeline

✓ End To End Blog Generation

- Introduction And Project Demo
- Building Project Structure Using UV Package
- Blog Generation Graph Builder And State Implementation
- Blog Generation Node Implementation Definition
- Creating Blog Generating API Using FAST API
- Integrating LangGraph Studio For Debugging
- Blog Generation And Translation With Language
- Building Blog Generation And Translation Graph Builder
- Blog Generation And Translation Node Implementation
- Testing In Postman And LangGraph Studio

✓ End To End Blog Generation

- Introduction And Project Demo
- Building Project Structure Using UV Package
- Blog Generation Graph Builder And State Implementation
- Blog Generation Node Implementation Definition
- Creating Blog Generating API Using FAST API
- Integrating LangGraph Studio For Debugging
- Blog Generation And Translation With Language
- Building Blog Generation And Translation Graph Builder
- Blog Generation And Translation Node Implementation
- Testing In Postman And LangGraph Studio

✓ Lang-chain Hands On

- Getting Started With Langchain And Open AI
- Creating Virtual Environment
- Important Components Of LangChain
- Data Ingestion With Documents Loaders
- Recursive Character Text Splitter
- Character Text Splitter With Langchain
- HTML Header Text Splitter
- Recursive Json Text Splitter
- Introduction To OPENAI Embeddings
- Ollama Embeddings
- HuggingFace Embeddings
- Vector Stores - FAISS
- Vector Store And Retriever - Chroma DB

✓ AI Agents Vs Agentic AI

- What is AI Agent Vs Agentic AI
- Some More Examples
- Introduction To Lang-Graph

✓ Lang-graph Components

- ChatGPT said:
- State Schema With DataClasses
- Pydantic
- Chain In LangGraph
- Routers In LangGraph
- Tools And ToolNode With Chain Integration - Part 1
- Building Chatbot With Multiple Tools Integration - Part 1
- Tools And ToolNode With Chain Integration - Part 2
- Building Chatbot With Multiple Tools Integration - Part 2
- Introduction To Agents And ReAct Agent
- Architecture In LangGraph
- ReAct Agent Architecture Implementation
- Agent With Memory In LangGraph
- Streaming In LangGraph
- Streaming Using astream Events Using LangGraph

✓ Human In The Loop In Lang-Graph

- Human In The Loop With LangGraph Workflows
- Human In the Loop Continuation
- Editing Human Feedback In Workflow
- Runtime Human Feedback In Workflow

✓ End To End Agentic AI Projects With LangGraph

- Introduction And Overview
- Project Set Up With VS Code
- Setting Up The Github Repository
- Setting Up The Project Structure
- Designing The Front End Using Streamlit
- Implementing The LLM Module In Graph Builder
- Implementing The Graph Builder Module
- Implementing The Node Implementation
- Integrating The Entire Pipeline With Front End
- Testing The End To End Agentic Application

✓ AI News Summarizer End To End Agentic AI Projects

- Project Introduction
- Building The Front End With Streamlit
- Building The AI News State Graph Builder
- Tavily Client Search Fetch News Node Implementation
- AI News Summarize Node Functionality Implementation
- Save Results Node Functionality Implementation
- Running The Entire AI News Agentic Workflow

✓ Model Context Protocol

- Introduction To Model Context Protocol
- Important Components Of MCP
- Communication Between Components Of MCP
- Demo Of MCP With Claude Desktop
- Cursor IDE Installation
- Getting Started With Smithery AI
- Building MCP Servers With Tools And Client From Scratch Using Smithery

LANGCHAIN REAL-LIFE USE CASES & TOOLS

✓ Setup & Prerequisites

- Use Case: Prepping development environment
- Tools: Anaconda / VS Code: IDE + Package management
- Conda / UV: Managing Isolated Python environments

✓ LangChain

- Use Case: Connecting LLMs to external data, tools, APIs
- Real-Life Examples:**
- Chatbot with memory
- PDF/chat/email data QA system
- Agent-based document retrieval

Tools

- **LangChain:** Framework for chaining LLM-powered modules
- **ChromaDB / FAISS:** Vector stores for document retrieval
- **Ollama / OpenAI / HuggingFace Embeddings**

✓ Agents and Agentic AI

- Use Case: Systems that can plan, reason, and use tools
- Real-Life Examples:**
- AutoGPT-style personal assistants
- AI DevOps helpers (search + deploy + write)
- Finance/News bots (scrape, summarize, recommend)

Tools

- **ReAct Agent:** Think-act loop for reasoning
- **Tools/ToolNodes:** Integrated utilities like browser search, calculators, file loaders

✓ End-to-End Agentic Projects

- Projects Include: AI Chatbots with Search
- News Summarizers
- Blog Generation
- Real-Life Examples:**
- Customer Support Systems
- Content Automation (newsletters, blogs)
- AI Co-writers with language translation

Tools

- **Streamlit:** Rapid UI
- **LangGraph Studio / Postman:** Debugging + API Testing
- **Tavily API:** For web search and information retrieval

✓ Python Basics + Pydantic

- Use Case: Core programming logic + data validation
- Real-Life Examples:**
- Automating tasks (data processing)
- Validating user input (e.g., form submissions)

Tools

- **Pydantic:** For strict data modeling and validation
- **Numpy / Pandas:** For scientific and tabular data processing
- **Logging Module:** For production-level debugging

✓ LangGraph

- Use Case: Building multi-step, stateful, branching AI workflows
- Real-Life Examples:**
- Custom chatbots with decision-making logic
- RAG pipelines with corrective/adaptive feedback
- Workflow orchestration with human intervention

Tools

- **LangGraph:** Graph-based orchestration framework for LLMs
- **LangSmith:** Monitoring and debugging LLM workflows
- **Streamlit / FastAPI:** For building and deploying frontends + APIs

✓ Memory + History + RAG

- Use Case: Recall past interactions and context for better results
- Real-Life Examples:**
- Support bots that remember previous user questions
- Research bots that adapt based on feedback

Tools

- **ConversationBufferMemory (LangChain)**
- **Retriever-Augmented Generation (RAG)** with vector stores
- **Corrective/Adaptive RAG** for feedback-based refinement

✓ Model Context Protocol (MCP)

- Use Case: Standardizing how AI tools communicate
- Real-Life Examples:**
- Seamless interaction between tools and models (e.g., Claude Desktop + tools)

Tools

- **Smithery AI**
- **Cursor IDE**
- **LangChain-powered custom MCP server/client system**

TESTIMONIALS

OF OUR STUDENTS

Mayur Kudale

Great learning experience at SevenMentor Pune! Trainers are knowledgeable, the content is practical, and the support team is very helpful. Highly recommended for anyone looking to upskill!

Vasundhara Dutonde

I'm incredibly thankful to the sevenmentor organisation for guiding me throughout my journey in software testing especially thanks to my mentor laxmi kamble ma'am helping me secure a successful placement. The support, mentorship and structured training i received played a crucial role in shaping my skills and confidence.

Apeksha Kakad

Excellent Training & Placement Support

The trainers were highly knowledgeable and provided in-depth explanations, making even complex topics easy to understand. The hands-on projects and real-world scenarios helped me gain confidence in my skills. The placement team was very supportive, providing resume-building tips, interview guidance, and job opportunities. Overall, my experience with SevenMentor was excellent. I highly recommend it to anyone looking for quality training with placement support.

Sumit Vishwambhar

I had an excellent learning experience at SevenMentor Pvt. Ltd., where I completed professional training in CCNA, Linux (RedHat), CEH, WAPT, CHFI, and CPI. Each course was conducted by highly experienced instructors who focused on both theoretical concepts and hands-on practical skills, which made the learning process engaging and effective. Mr. Samir Khatib (CCNA) provided in-depth networking knowledge with real-world examples. Mr. Abhijit Dahatonde (Linux) taught everything from basics to advanced commands and server configurations. Adv. Rajat Sharma (CEH & WAPT) was excellent in explaining cybersecurity concepts, ethical hacking methodologies, and penetration testing in a simplified and structured manner.

GLOBAL CERTIFICATION FROM SEVENMENTOR

SevenMentor provides globally recognized certification programs designed to help individuals enhance their knowledge, skills, and career prospects. Our certifications validate the competence and expertise in various fields, including IT, business management, digital marketing, and more. Achieving a SevenMentor certification offers a competitive edge and ensures your capability in your chosen domain.

WHY SHOULD YOU JOIN THIS PROGRAM?

Our 100% Job Assurance Program guarantees that you will secure a job as a data scientist. With access to over 500 leading partner companies, we ensure you have ample opportunities to land your ideal role.

The program is structured to provide comprehensive training, equipping you with the technical skills, real-world experience, and industry insights needed to excel in the field of data science. Additionally, you'll receive ongoing support, including job placement assistance and career coaching, to help you navigate the hiring process. With our program, you're fully prepared to succeed in the competitive job market and launch your data science career.

PLACEMENT TEAM

Our placement staff is committed to your IT career success. With strong industry connections, market insights, and specialized assistance, we prepare you for a competitive job market and assist you in achieving your objectives. We offer individual resume development, mock interviews, and hands-on career coaching to help you stand out to top recruiters. Our dedication extends beyond placements; we provide you with the confidence and skills you need to succeed in your chosen field. At SevenMentor, your success is our priority!

CRM TEAM

At SevenMentor, our CRM team is committed to ensuring that every student has a positive and enjoyable experience. We attentively listen to your issues, answer your inquiries quickly, and provide personalized service that is suited to your specific requirements. Our team takes a student-first approach, ensuring that your needs are handled with professionalism, kindness, and attention to detail. Your satisfaction is our first priority, and we commit ourselves to supporting you every step of the way.

YOUR FUTURE IN
AGENTIC AI

The background features a dark charcoal grey field with a series of faint, white-outlined geometric shapes. These shapes are primarily cubes and rectangular prisms, some of which are partially visible and overlap, creating a sense of depth and a futuristic, architectural aesthetic. The lines are thin and white, contrasting with the dark background.
